

ST. PAUL'S UCC SCHOOL PHILOSOPHY

The early childhood program at St. Paul's UCC School is child-centered and provides a safe, healthy learning environment so that each child can discover, learn, and grow in an individual way. Our program strives to advance physical and intellectual competence as well as to support social and emotional development in an atmosphere of acceptance and positive guidance.

As a church related school, we encourage the moral development of the children as an essential part of their character formation. We emphasize the value of God's love in human life, and the fruits of a relationship with Jesus Christ—love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self control. St. Paul's UCC School is a comfortable place where opportunities are provided for the children to play, to make discoveries, to be creative, and to make healthy decisions.

GOALS OF OUR SCHOOL

We encourage each child's development in the following:
Social—Emotional Growth
Cognitive Development
Language Skills
Gross and Fine Motor Skills
